4264 S. OBEIDULLA, *Amildar.*

OFFICE OF THE CONTROLLER OF CIVIL SUPPLIES IN MYSORE, BANGALORE.

(DEPARTMENT OF FOOD AND CIVIL SUPPLIES.)

Notification dated 24th December 1946.

Subject:—Delegation of Powers to the Deputy Commissioners of Districts under the Cotton Cloth and Yarn (Control), Order, 1946.

No. T3. 7565-2. In exercise of the powers vested in me under C (15) of the Cotton Cloth and Yarn (Control) Order, 1946, I hereby authorise the Deputy Commissioners of the Districts to discharge all or any of the functions noted in clause 12-B, sub-clause (*a*), (*b*) and (*c*) in so far as they relate to cloth and cloth dealers of their respective districts, for the purpose of this notification, the word "Manufacturer" wherever occurs will be omitted.

4679 A. S. KHALEEL, *Controller.*

OFFICE OF THE SENIOR SURGEON IN MYSORE, BANGALORE.

Notification.

***Preamble.**

The accompanying advertisement for admission to special courses in Maternity and Child Welfare, Industrial Hygiene, Nutrition, Biometric Technics at the All India Institute of Hygiene and Public Health, Calcutta, is published for the information of all concerned.

4626 V. V. MONTEIRO, *Senior Surgeon.*

Certificate in Maternity and Child Welfare :—The most serious defect in the present maternity and child welfare services is the absence of adequate emphasis on social and preventive medicine. The special course in maternity and child welfare has been drawn up as an expedient to meet the situation. The intention is to admit as far as possible women already employed in maternity and child welfare to provide a preventive outlook and to acquaint them with social medicine and the organisation of maternity and child welfare services on modern lines. The course will extend over 3 calendar months commencing in October and will comprise theoretical and practical instruction in the following subjects : —

Prenatal care and infant and child development. Organisation in maternity and child health services. Child psychology. General Hygiene and social economy.

Facilities for practical instructions are provided in the dispensaries and hospitals, Singur Health Centre and the Sir John Anderson Health School.

A certificate of attendance will be granted at the end of the course by the Director of the Institute

Certificate in Industrial Hygiene:—The training will consist of academic instruction through lectures, demonstrations, laboratory practicals, clinics, and inspections. The period of instruction will be for 3 months followed by an examination.

The course will include the following subjects :—

(1) *Physiological Hygiene* :—Designed to give the student a knowledge of general principles of human physiology and the effects of the various environmental factors on health, conform and ability to work; their relation to diseases such as pneumonia, tuberculosis, cancer, etc. The subjects are considered in relation to problems of industry.

(2) *Nutrition* :—Fundamentals of nutrition and their application. Analysis and construction of adequate diets.

Diet in relation to work. Deficiency diseases and diet in its influence on incidence and course of disease. Dietetic treatment. The students will be trained to appraise the dietaries of workers and make helpful recommendations.

(3) *Industrial Hygiene* ;—Muscular work, hours of work in relation to efficiency, fatigue, boredom and discontent. Conditions resulting from posture strain and stress. Industrial Psychology

(4) *Industrial Sanitation* :—Housing, water supplies, drainage, refuse disposal and industrial waste.

(5) *Industrial Toxicology* :—The industrial poisons, acids, alkalies, metals, gases, organic fumes, the occupational diseases and the methods of their prevention.

(6) *Industrial Dusts* :—Anthracosis, siderosis, silicous organic dusts (cotton, wool, jute, leather.) Methods of examination of dusts, dust counting, prophylaxis and prevention.

(7) *Air-conditioning and Ventilation* :—Atmospheric pollution, qualitative and quantitive analysis of gases, measurement of ventilation and air-flow. Comfort conditions, measurement of effective temperature. Physiological principles of air-conditioning, heating, cooling, humidity control. Standards for factories. Elements of engineering practices.

(8) *Illumination and Sound* :—Lighting, natural and artificial, measurement of illumination, standards of artificial illumination in factories, etc. Elements of sound, frequency and intensity of vibrations. Physiological and psychological effects of sound. Prophylaxis and protection from sound. Engineering practices in sound control of factories.

(9) *Industrial accidents* :—Analysis of movements involved in industry. Accident prevention. Engineering practices. Rehabilitation of workers after recovery from injury.

(10) *Industrial records and statistics* :— Physical examination of workers before employment, periodic examination. Records of absenteeism, invalidism, loss of limb and life.

(11) *Industrial health administration* :—Factory Acts, workmen's compensation, social security, Medical service in industry. Economic and other benefits. Function and organisation of Industrial health departments. Organisation of canteens. Administrative and legal problems.

Successful candidates will be given a certificate by the Director of the Institute.

Certificate in Nutrition :—The course for this certificate will extend over 3 calendar months and will include the following subjects :—

'A' LECTURES.

The problem of nutrition and its importance in public health with special reference to Indian conditions.

Historical development of knowledge of nutrition and the discovery of the accessory food factors.

Basal and total metabolism; calories, food requirement according to age, growth, etc.

Carbo-hydrates, fats, proteins, and their functions as food.

Protein requirements of man; its determination.

Vitamins : their nature, functions, optimum requirements and effects of deficiency.

Minerals : Ca, P, I, Fe; their importance in nutrition.

The role of trace elements : Cu, Mn, Co, etc., in nutrition. Balanced diets for infants, children, pregnant and lactating women.

Assessment of state of nutrition:—Application to nutrition surveys.

Mess feeding of population:—The synthesis of essential vitamins.

B. LABORATORY DEMONSTRATIONS.

Chemical analysis of food for determining the various food factors like proteins, minerals and vitamins.

Use of different physical instruments like spectroscope Bomb Calorimeter, etc.

C. CLINICAL DEMONSTRATIONS.

Clinical appearances of the common deficiency diseases and their treatment.

The use of bio-photometer, examination of body fluids and tissues for deficiency of minerals, special tests like the phosphates estimation, urine saturation test, etc.

D. ANIMAL EXPERIMENTS.

Planning of experiments for developing deficiencies in the laboratory animals and testing the effects of different supplemental feedings.

Histopathological changes in the different deficiencies in animals compared to humans.

E. FIELD SURVEYS (RURAL AND URBAN).

Assessment of nutritional stauts in representative samples.

Diet surveys and the evaluation of deficiencies therefrom.

Correlation with the results of a concurrent socio-economic survey.

Successful candidates will be granted a certificate by the Director of Institute.

Certificate in Biomatric Techniques.—This course is intended for public health men and research workers in medical and allied biological fields. It will extend over three months from June. Approximately 30 hours will be devoted to lectures and 72 hours for practical work exemplifying the theoretical parts of the lectures. The rest of the time will be used for prescribed reading and as far as possible for the application of statistical methods to the interpretation of raw data from the worker's field.

The course is designed to present:—

1. (*a*) The basic theory of probability including error of sampling.

(*b*) The methods of estimation of parameters.

(*c*) Problems of testing Hypotheses.

(*d*) Planning of laboratory experiments and field surveys.

(*e*) Analysis of variance and covariance

(f) Discriminant functions.

II. Laboratory practicals for exemplifying the above and for carrying out the fundamental statistical operations of importance in public health work.

III. Prescribed reading for application of statistical methods to the interpretation of raw data collected in the field.

A certificate will be issued to successful candidates by the Director of the Institute.

Advertisement.

The special courses detailed below will be given at the All-India Institute of Hygiene and Public Health, Calcutta commencing from 6th January 1947

1. *Special Course in Maternity and Child Welfare*:—Candidates for admission should be either graduates or licentiates in medicine from a recognised Medical College or School and shall have had one and half years experience since qualification. Preference will be given to candidates who have (*a*) held post in the Maternity and Child Welfare Service (*b*) held a resident post in a Maternity Hospital or Maternity Wards of a General Hospital or (*c*) held a resident post in a Children's Hospital or Children's Ward in General Hospital. The course is open only to medical women.

2. *Special Course in Industrial Hygiene*:—The course is designed to provide training to medically qualified persons intending to become members of the staff of medical service in an industrial organisation or industrial Bureau of Public Health Departments. Candidates for admission should be either graduates or licentiates in medicine from a recognised

Medical College or School. Preference will be given to candidates sponsored by an employer such as industrial concerns, Railways, Provincial Governments, Indian States etc.

3. *Special Course in Nutrition.*—The course is designed to meet the growing needs for Public Health Workers trained in Nutrition. Candidates for admission should be either graduates or licentiates from a recognised Medical College or School. Non-Medical personnel associated in Public Health work may also be admitted.

4. *Special Course in Biometric Techniques:*—This course is intended for Public Health men and research workers in medical and allied biological fields. Candidates for admission should be either medical graduates or Public Health workers possessing knowledge of Mathematics up to at least intermediate standard of a recognised University. The course will be particularly useful for Public Health men engaged as field nutrition workers, in Ppublic Health laboratories or in charge of Maternity and Child Welfare centres.

All the above courses are of three months duration and successful candidates, on completion of the course, will be awarded a certificate for competency.

A sum of Rs. 25 will be charged as tuition fee for the course in Maternity and Child Welfare and Rs. 150 for the other three courses. In addition a refundable caution money depost of Rs. 100 is payable for the courses in Industrial Hygiene and Nutrition. Candidates with approved war service are, however, exempted from payment of tuition fees.

No hostel is attached to the Institute and the students will have to make their own arrangements for boarding and lodging.

Applications stating age, community, province, educational and other qualifications must reach the Director, All-India Institute of Hygiene and Public Health, 1100. Chittaranjan Avenue, Calcutta, not later than 9th December 1946.
